Associate Mast and Linton to Be Summarily Ejected from the Board of Trade.

Alarming Police Arrangements Foreboding Serious Trouble—A Cowardly Assault in the Pit.

Seven Short Fifth Hours Often Were Too Unbearable—Everybody Was Armed.

The Executive Meeting Tuesday's session was held principally at the opening of the call Board of Trade to get up a demonstration with a view of ousting members. It was known that a meeting on Market square was right under the wire.

After the proceedings had progressed for awhile, Mr. Sutton, a member of the Executive Committee, moved that Messrs. Mast and Linton, members of the Board of Trade, be expelled from membership and privileges of that Board, and that the Secretary be instructed to notify them of the action of the Executive Committee.

Mr. Sutton then offered the following preamble and resolution, which were read:

WHEREAS, Certain members of the Board of Trade have been guilty of conduct unbecoming members of the Board of Trade, and have been guilty of a breach of decorum in the regular meetings of the Board of Trade, and have been guilty of conduct tending to bring the Board of Trade into disrepute, and have been guilty of conduct tending to bring the Board of Trade into disrepute, and have been guilty of conduct tending to bring the Board of Trade into disrepute

Last Night's Proposals Cannot—Some of the Leaders—The Deputies Council to Receive—Notes.

The Board of Trade will today move into the magnificent new quarters on Jackson and La Salle streets, and enter on a new epoch of its existence. The movement was half social and half business. The Board met last evening for the purpose of taking a formal leave of the old building. All business will be suspended, and the occasion will be observed as a holiday by the Board's members. During the afternoon and evening it is proposed to have a grand reception in the new building, to which the members of the Board will be privileged to invite their friends. The arrangements for the reception are on a magnificent scale, and the occasion promises to be a very brilliant one. The following committee has charge of the arrangements: [Names]

The meeting was called to order at 3 o'clock by President [illegible], and there was a large attendance of members. The President said: [illegible]

[illegible] Mr. Chairman, I have a resolution which I desire to offer, and which I am sure will meet with the approval of every member present. [illegible] I therefore offer the following resolution: [illegible]

The resolution was unanimously adopted, and the Secretary was instructed to issue the invitations. The President then said: [illegible]

Democratic Senators Again Fail Themselves on Record Against the Appropriation Bills.

Defeat of the State-House Bill—Cremation as a Candidate for Senatorial Honors.

The Retreat Constitution Bill Rebuked—The Canal-Claims Measure Talks Again.

SPRINGFIELD, April 28.—[Special.]—The greater part of the time of the Senate was taken up this forenoon discussing various Governor's objections going particularly to the appropriation bills. Every thing that they could see about objectionable, they could against the members and any themselves on record as opposed to doing so the opposite. Some which have been worked a month to get satisfactorily. Farmers are not to the obstruction again manifest.

Senator Hall accused a committee acting with the Governor in the Senate investigation of relation to the Governor against the action of House Democrats, and the Governor opposing power at the Executive. For which charges the committee either resigned or not a non-constitutional convention. The Governor who would not be interested.

The Senate then resolved, on the suggestion of a committee to examine the physicians recommended bills in the Legislature was adopted.

During the bills passed were passed to their passing over the veto relating to Agricultural College bill, for building a normal school in the State, the executive Board relative to the sale of farm and grazed lands in 40 or 80 acre lots.

Senator Cremation brought his amendment to the bill to confer with house Democrats and conference agree on salary appropriations. The bill amends the present law by striking the words at the end of the section, and inserting the words "and the Governor shall receive no other salary or compensation for his services as Governor." Senator Hall opposed the amendment and made short work of the proposition of voting much or less, and his effort failed to amendment, and amendment was put on and agreed to by giving three Senate votes to which to get his salary check.

Among the bills introduced was one by Senator Shumway providing for an additional asylum for the deaf at Chicago.

Senator Thompson introduced numerous resolutions condemning under which Jones was tried and sentenced, and petitioning clemency in behalf of the prisoner.

The following resolution introduced by Senator Sherlock, but not been considered from the traditional action on the eve of the great holiday, for judgment:

[text illegible]

The House was engaged nearly all day in a fight over the bill to appropriate $200,000 for repairing and painting the new State House, which was badly defaced by defacing and the cracking walls of the interior. This item was brought to the appropriation to address by the $200,000 asked last year by the people for completing the building. Extra guns, and for at a public to committee, and said if the bill was brought back he would offer an amendment to reduce the amount from $200,000 to $100,000.

The debate on increasing the salary from three to four thousand dollars was participated in by many members, all expressing the opinion that the salary should be increased, and the minority opposition arose to the measure of reform was defeated on the ground that it would not be time enough to consider it in the Constitutional Convention. The Committee on Judiciary will report favorably on the proposition.

The Senate then resolved itself into the Committee of whole Mr. Lambert in Chair, and several bills. A bill which had the Governor's veto to the Governor's action in the matter of the Illinois Soldiers' Home, and the Governor's appointing power at the Executive. For which reasons the executive either compelled to act a non-constitutional convention. The measure was finally laid to indefinitely
